# ABDULLAH HASHIM

+966-595585131 | Abdullah97Hashim@gmail.com | Saudi Arabia, Yanbu (Willing to relocate)

https://www.linkedin.com/in/abdullah-hashim/

## SUMMARY

A Self-starting, intellectually curious and creative Computer Science student with proven experience in User Interfaces Development, Software Development, and Web Development. Able to apply UI/UX concepts to improve the usability for the users, and delivering full projects within the provided time frame.

## WORK EXPERIENCE

**SAUDI ARAMCO | COOP INTERN | JUL 2018 - JAN 2019 | Saudi Arabia, Dhahran**

EXPEC Computer Center - Petroleum Engineering Application Services Department
Reservoir Engineering Systems Division

- Designed and developed a new web application, and several general use components using Angular framework
- Analyzed users' engagement with the applications and developed ways to improve the overall user experience
- Exposed to oil and gas business analysis models in order to grasp the business model and enhance the applications experience

## PROJECT EXPERIENCE

**THE SEARCH BASE | Co-Founder & Software Developer | Jul 2018 - Now | UK, Cardiff**

TheSearchBase is startup where it sells a software as service (SaaS) that helps companies to market their recruitment services using our smart chat-bot application

- Developed the workflows inside the team which enhanced the productivity by 43%
- Migrated the project to a modern framework (React.js) which increased the delivering time and code robustness
- Took care of all user interfaces and interactions in the application, by improving the application interactivity.

## AWARDS & ACTIVITIES

**WA'ED HACKATHON | SECOND PLACE | Dec 2018**

Won the 2nd place among 150 participants over the kingdom in the parking solutions challenge

- Led the team during the hackathon
- Collaborated in designing the business model and analyzing the market size
- Prototyped and presented the idea

**SAUDI ARAMCO UPSTREAM HACKATHON | FIRST PLACE | Dec 2018**

Won the first place among 107 participants in the Automated Seismic Data Interpretation

- Designed an algorithm to automate seismic interpretations
- Utilized seismic attributes in the automation

## EDUCATION

**YANBU UNIVERSITY COLLEGE | SEP 2014 - MAY 2019**

Bachelor of Computer Science with a GPA (3.5/4) - Web Application Development Track

## TECHNICAL SKILLS

- HTML CSS Javascript
- Angular 6 Framework
- React Framework
- Adobe XD
- Photoshop
- Wire-framing
- Data Analysis
- Image Processing
- Flowcharts
- Python Flask
- Nodejs Express
- MySQL

## COURSES

**FULLBRIDGE U ONLINE AT MISK | DEC 2017**

Fullbridge intensive course which mainly included:
Creative problem solving skills, Data analysis technologies, and Project planning
